Push-Mount™

UV Stabilized Nylon Cable Tie System

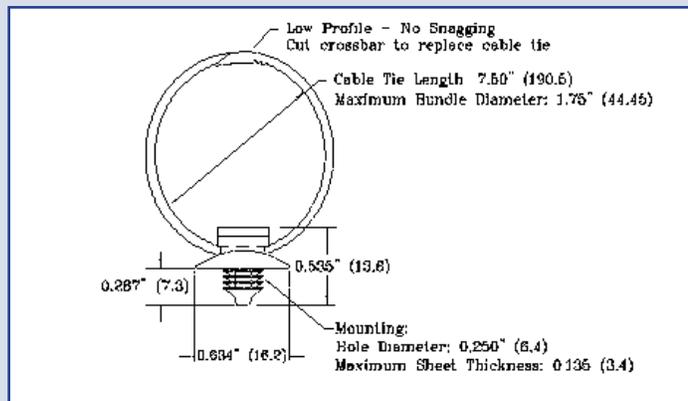

DTi introduces Push-Mount, the newest DFM/DFA assembly for managing cables. Push-Mount is different than all other wire ties for a mounting device because of its innovative design. Its design delivers a “one-piece” assembly for quick snap-in mounting. To increase worker safety and cover edge burrs, Push-Mount’s low profile head is trimmed at the end of the tie so it ‘nests’ out of the way.

Part # 0510-01

Save space, time and injury with the DTi Push-Mount tie

Features:

- Reduction of installation time and its associated costs – one-piece part – DFA/DFM.
- Low-profile tamper-proof wire tie.

Qualifications:

- Rated for indoor and outdoor use. Ultraviolet Light (UV) resistant. Color: Black
- Flame Retardant. UL94 V-2
- RoHS Compliant
- Tensile Strength: 50 lbs. (222 N)
- Operating Temperature Range: -40° F (-40° C) to 185° F (85° C)

Packaging:

- Sealed poly bag in quantities of 100, 1,000, or customer specified up to 1,000 pieces.
